

## Cleaning and Sanitizing in Child Care

The April-May 2004 NC Child Care Health and Safety Bulletin has a wonderful article on ***Sanitation and Health: Making the Connection***. Regretfully, there is a printing error on page 2 of the English printed version in the table that gives information about bleach solution mixtures. This link will take you to the corrected version in PDF format:

[http://www.healthychildcarenc.org/hs\\_bulletin.htm](http://www.healthychildcarenc.org/hs_bulletin.htm)

This handout from the NC Child Care Health and Safety Resource Center explains ***Cleaning and Sanitizing: what's the difference and how are they done?***
